## **Known CIA Agent Leaks Startling Top-Secret Info—TERRORIST ARMIES Pouring Into USA Right Now Preparing For WAR**

<https://www.youtube.com/watch?v=3PkYJFYVqiw>

Tosh Plumlee, former CIA Agent, reveals startling information about our nation, and our government! This is jaw-dropping information that we are definitely not supposed to know about! He discusses covert operations, including what's really going on at the 'border' and why we are being distracted! He also reveals information about drug cartels and government involvement, (coming martial law—next week, in part two), and the fact that Muslim terrorists are walking straight into our country, and a lot of them!

While they're looking the other way at a created diversion, the terrorists slip right across the border! Then, they infiltrate and quietly set up safe houses in major cities! These people from the Middle East and South Africa have a plan, and we don't even know what they are doing! We are wide open—literally sitting ducks—while they are building an entire army inside of the USA!

Some of these things have been going on since the 1950's, but it's only gotten worse, and the deception has grown much thicker. Folks, this is a must-hear! I urge you to listen to every bit of the below video and share this post! I promise that you will be completely blown away!

"These bones have been buried, but now they are starting to come out! There's old operatives that are starting to talk about some of the operations that they were involved with that coincide and prove what I am telling you today!" —Tosh Plumlee
